"The Mark of Quality"

Grohs Electric was founded by Mark J. Grohs, a master electrician who has twenty four years experience including a five year Wisconsin state apprenticeship to his credit. Grohs Electric is licensed, insured and bonded in Wisconsin and Illinois. Grohs Electric is an honest, hard working company that stands behind its name. Grohs Electric provides their customers quality and excellence through our thorough understanding of state codes and electrical applications. We look forward to the opportunity to earn your business.

Grohs Electric employees are union qualified electricians who have had over a thousand hours of classroom training and a minimum of five years supervised on-the-job training. Employees have completed an OSHA 10 class for safety, have been drug tested and participate in on-going training, education and safety programs which will continue throughout their working career. Grohs Electric will complete the job professionally and on time.

When choosing an electrical contractor, make sure they are licensed, insured and bonded for your peace of mind. It is important when considering an electrical contractor that their employees have completed a state approved apprenticeship, are drug tested and have completed a state approved safety program. Grohs Electric is willing to provide references upon your request.

GROHS ELECTRIC IS A
QUALIFIED ELECTRICAL
CONTRACTOR EXPERIENCED
IN THE FIELDS OF
COMMERCIAL, RESIDENTIAL,
INDUSTRIAL, DESIGN BUILD,
